

FIRST GOVERNMENT SCHOOL IN SYDNEY'S INNER WEST TO INSTALL

With the help of the Solar my School program, Dobroyd Point Public School has gone solar. The school has installed 66 panels on the library and hall, replacing the hall's 10 year old panels with new ones that generate twice the output. The project was supported by NSW Department of Education funding. Annually they will:

Save **30%** on the school's energy bill

Produce enough power equal to running **167 computers** or **6 homes**

Reduce carbon emissions by **30 tonnes**

Equivalent to taking **10 cars** off the road

Solar snapshot

Location:	Dobroyd Point, Sydney
Size of system:	24.4 kW
Estimated bill savings:	\$4,900/yr
Estimated energy savings:	33,521 kWh
Simple payback:	2.6 years
Solar installer:	Cherry Energy Solutions

What is Solar my School?

Solar my School is a free Council program to help schools in Sydney's Inner West navigate a path to solar success.

"The support we got from the Solar my School program from start to finish has helped to make this project possible."

Principal, Susan Morrissey
